## Why hire makes sense

### Flexibility

You can hire by the day, week or weekend. Delivery service is available for larger items.

### Free advice when you hire

Our expert staff can advise you on the correct tools for the job. Safety leaflets and personal protection kits are available with all hire equipment.

### Save money

No capital tied up unnecessarily. No repair or maintenance costs.

### Save time

The right tools for the job means less valuable time wasted.

### Hiring is an opportunity to try out equipment before buying

Ask for details. We have the right tools and equipment for all your needs, at competitive prices.

### Safety check list

- Ask for any safety information leaflets.
- Our staff will offer expert guidance on all equipment hired.
- Use manufacturers guide book if available.
- For electrical work outside, use a transformer to reduce voltage.
- Always use a Residual Current Device 'RCD' adaptor plugged into a wall socket.
- Choose 110 volt equipment.
- Use personal protection items.

## Fuels and Lubricants for 2-Stroke Engines

When you choose STIHL, you're investing in one of the most carefully-engineered, high-performing and durable range of power tools available. So it deserves the best fuel.

MotoMix® is a fuel created especially for STIHL 2-stroke engine power tools. It ensures the very best performance and lubrication. So, whether you're a professional user, carrying out heavy duty jobs, or an occasional user at home - it will help your tools perform better, for longer.

### Key benefits

- Convenience: pre-mixed, so it's ready to go whenever you are
- Higher performing: power efficiency with improved fuel economy
- Better lubricating: high octane fuel mixture offers excellent protection for your tools
- Longer lasting: being ethanol-free means it can be stored for longer periods.
- Available in 1L and 5L containers as standard.

# Access Platforms

## Hinowa Tracked Access Platform - 14m

**No scaffold required for those high and inaccessible jobs - Chimneys, gable ends, overhead lighting, conservatory and lean-to roofs, decorating and repairs.**

Can be used at 14 meters high by one person, & 12 metres high by 2 persons. The hydraulic widening system of the tracks assures a higher stability during transport on inclined surfaces. The reduced width dimensions allow it to fit through even the narrowest gaps, that until now were inaccessible with an aerial platform.
